AMONG BIG TREES**

Visiting Famous Mariposa Grove  
On His Way to the  
Yosemite.

**SPEAKS IN PRAISE OF GOLF**

Recommends it to Gentlemen Over  
Fifty Who Need Something  
To Do.

El Portal, Cal., Oct. 6.—President Taft is safely tucked away tonight in this remote little settlement at the foot of the Sierras and near the gateway of the Yosemite valley, one of the garden spots of the world.

Clad in khaki riding breeches, soft shirt, khaki coat, boots and cap, President Taft tomorrow morning will start out of El Portal on a three days' trip of sightseeing. By stage and on foot he will visit the giant sequoias in the Mariposa big tree grove, will follow the roads and trails leading into the valley and will walk about the floor of that park to admire its imposing scenic splendor.

The visit to the big trees, said to be the oldest and largest of living things, came first in Mr. Taft's itinerary. Leaving by coach early tomorrow morning he and his party will be driven to Wawona at the edge of the grove, where road monarchs of the forest grow to an altitude of more than 200 feet, and more than 100 feet in circumference at the base.

Mr. Taft will be driven through a tunnel cut through the base of one of the old trees which is said to have been standing from 3,000 to 5,000 years. The forenoon of Friday will be given over to the big trees, the president spending Thursday night at the hotel in Wawona.

**FEELS LIKE A BOY.**

At Modesto a great crowd greeted the president at noon and he spoke briefly, saying:

"It's very good of you to come out and give me this cordial welcome this morning. We had a pretty strenuous day in San Francisco yesterday and today I feel like a boy out of school after an examination. I don't want to do anything but smile and think that it is over. However, it's very pleasant when you are going through it."

"I am glad to see you and to look into your faces and to know that you are all looking forward to accomplishing something and becoming even more well-to-do than you are now, for that is the American spirit that I find all over the country. And I am glad to know that it is in California as well as in Washington, and in Idaho, Montana, and even in Utah, among the Mormons. It makes a man proud to belong to such a race, for we are a distinctive race."

On Friday afternoon the president will enter the park from one of the highest points, and after a trip to all the show places of the upper levels, will begin a descent to the floor, which is inclosed by almost perpendicular cliffs of stone more than 3,000 feet in height. It will be the president's first trip into the Yosemite, and he has been looking forward to it for months, both as a sightseeing experience and as affording three days' rest from touring and speechmaking.

**DISPENSES WITH ESCORT.**

When the park officials heard that the president was coming they arranged to have troops of United States cavalry act as his escort for the day among the high trees and the two days in the valley. Mr. Taft was informed of the plans at San Francisco, and he asked at once that the escort be dispensed with. He is anxious that the trip through the park shall be devoid of spectacular features, and that his visit shall be relieved as much as possible of an official aspect. The president was pretty tired from his strenuous day in San Francisco, Oakland and Berkeley yesterday, and retired early tonight in the little hotel here.

John Muir, the noted naturalist and zoologist, who is the recognized authority on all matters of the Yosemite, joined the president's party at San Francisco this morning and will personally explain the wonders of the park and valley to Mr. Taft. The

**IN PRAISE OF GOLF.**

Mr. Taft said:

"I am very much touched by your

kindness in giving this to me—this memento of my visit. It has reference to the game of which I am very fond. The game of golf is an old Scotch game, played in Scotland by everybody from boys to old men, and from the poorest to the wealthiest. They have what they call open links, that is, golf grounds devoted to the public, and I sincerely hope that in this country the game will spread.

"I suppose I am looking at some baseball fans equal to myself in that regard. I don't know how it is with you, but I have got beyond my baseball playing days.

"The game of golf, on the other hand, remains with you from 10 to 70. Indeed, I have played with a gentleman very near 80 and he beat me. It is a game that leads you to walk without realizing that you are walking. When you play a game of 18 holes and walk upwards of four or five miles there is only a pleasant feeling of fatigue and none of that violent exercise that you have in baseball or tennis. I am hoping that out here you have had not only a pleasant feeling of fatigue but that you have also had the benefit of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My pains all left me, I grew stronger, and within three months I was a perfectly well woman.

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound. Mrs. JOHN G. MOLDAN, 215 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Yosemite recently was re-coded by the state of California to the United States and now is under the same control as the Yellowstone. The president visited the Yellowstone several years ago and during his present tour is adding the Yosemite and the Grand Canyon, in Arizona, to the long list of the world's wonders it has been his good fortune to see.

**MEMBERS OF PARTY.**

Mr. Taft will be accompanied into the big tree grove and into the park only by members of his own party and a California delegation consisting of Gov. Gillette, Senator Flint and Representatives Needham, McKimley and Engelbright.

When the date of the president's visit to the park was fixed there was great fear that his trip might be seriously marred by the suffocating dust which some times is encountered on the way in and out during the dry seasons of the year. Rains during the last 10 days, however, have fortunately served to put the roads in the best of condition and also to provide a new supply of water for the falls which at this season have but small semblance to the rushing, pitching cataracts of the spring.

The ride into El Portal this afternoon furnished a foretaste of the scenery that the next three days have in store for the president. Leaving Merced at 2:30 p. m., after an uneventful run down the famous San Joaquin valley, the president's train began an 80-mile run to the terminus of the Yosemite valley railroad at this place. For more than three-fourths of the way the train wound along the Merced river with its series of waterfalls and kept continuously climbing from the level of the sea to a height here of more than 4,000 feet. The president made several car-and speeches at thriving little California cities between San Francisco and Merced, and at the latter place he made a brief address to a big throng. All business in the town was suspended while the president was there.

At Merced the president was presented with another golf stick. It was made of eucalyptus wood, gold mounted. The presentation called out a golf speech in which the president suggested that the unimproved land of the west be turned into open golf links for the public.
